TOWNS GETS AN ADDRESS

The Champion and Friends
Entertained by the St.
George's Society.

St. George's did itself proud by the
manner in which it entertained Geo. A.
Towns and his friends at the Shaw
House on Tuesday evening. The affair
took the form of a smoking concert,
was purely informal in its character
and the two hundred or more gentle-
men present entered fully into the en-
joyment of the occasion and made
merry until midnight. The senti-
ments expressed by the different
speakers were with one accord con-
gratulatory toward Mr. Towns upon
his splendid victory, but they did not
detract in the least anything from the
career of his worthy opponent.

Mr. A. C. Boyce, vice-president of
the society, took the chair shortly
after 9 o'clock and called the gather-
ing to order. A letter of regret at his
inability to be present was read from
His Honor Judge Chapple.

H. A. Longley opened up the pro-
gram with a well-rendered song.
The arrival of Messrs. Towns, Sulli-
van, Pearce and Field brought every-
one to their feet and was the signal
for loud and prolonged applause and
"He's a Jolly Good Fellow."

The chairman addressed Mr. Towns
in a neat little speech, congratulating
him upon his success. He said it had
been a source of much gratification
to the people of Rat Portage to have
the champion sculler of the world here
and they had thought it little more
than a joke when their champion had
been challenged by a fellow named
Towns. Mr. Towns' conduct since
coming here had won him innumera-
ble friends, cheers. They had felt a
 pang of sympathy when they saw Jake
defeated and he felt satisfied Mr.
Towns, although the victor, shared
that sympathy. St. George's Society
offered its most hearty congratulations
to the new champion. They were
proud to know he was the descendant
of an Englishman and in the name of
St. George's Society they greeted him.
In the interests of good sport and good
fellowship they greeted him and in the
interests of St. George's Society they
honored him. Mr. Boyce also con-
gratulated Mr. Pearce on his victory over
Hackett, after which he called upon
Mr. B. G. Fraser-Gierie, secretary of
the Society, to read the following
address:

Rat Portage Ont., Sept. 7th, 1901.

"tiger" when he rose to speak. He
said he did not know how to thank the
gentlemen present for the very kind
reception tendered him and his friends.
They had come a long way and been
very successful. He would never for-
get the hospitality of Rat Portage.
What surprised him more than any-
thing was the manner in which Rat
Portage people had taken their defeat.
They could stand a lot of beating and
still not show it. It had been his am-
bition to get the championship back
ever since Jake took it from Stansbury
fairly and honorably. Apart from
Towns sculling ability he loved him as
a man. He was also pleased to see
Pearce win. It was really his first
matched race, but it would not be his
last one. When Towns wanted to re-
tire he would give the other a chance.
He hoped Rat Portage would unearth
another champion and when they did
they could send him along. If he could
win the championship, he (Sullivan)
would come back here after it with
another man. (Cheers).

Mr. H. C. Carpenter sang a song in
good voice.

Harry Pearce said he was pleased at
the reception tendered him and his
friends, and thanked the gentlemen
present for the manner in which they
had treated him.

Wm. Greenwood said "The Powder
Monkey" in his inimitable style. A
musical trio composed of A. S. Cuth-
bert, guitar; V. Landry, violin and
H. C. Carpenter, piano, rendered two
selections, which were greatly appre-
ciated.

Mr. Holt, manager of the local post
of the H. B. Co., replied in a neat
speech to the toast of "England."

A. M. Hay, did full justice to the
toast "The Colonies of England." A.
Shaw also spoke to the same toast.

The toast "The United States" was
drunk in silence out of respect to our
neighbors who are now plunged in
grief at the calamity that has befallen
their President. Consular Agent Fris-
bie thanked the company for the man-
ner in which they had honored the
toast. He congratulated Mr. Towns
hoping he would reap his reward from
it and then lose it to a good American.

"The Red White and Blue" by the
company was heartily sung.

Councillors Horswill and Belyea
replied to the toast of the "Town Coun-
cil."

Geo. Smith brought down the house
with his famous song "The Mick that
Threw the Brick" and then he boasted
it up again with "What do you think
of Hoolihan?"

Commodore Sterling replied to the
toast of the "Rat Portage Rowing
Club."

Geo. Graham and Capt. Kendall also
spoke briefly.

SUPERIOR PRESBYTERY

Rev. J. L. Small's Resigna-
tion Accepted—Other
Business.

The Presbytery of Superior met in
Knox Church on Wednesday, the 11th
inst. Members present were Rev. S.
C. Murray, Port Arthur; Rev. Thos.
Dodds, Emo; Rev. W. M. Rochester
and Mr. A. G. Carmichael, Rat Portage.
Rev. A. G. McKittrick, of the Shoal
Lake Indian Mission, and Rev. John
McGuire, of Keewatin, were also
present.

The question of the resignation of
Rev. J. L. Small, Keewatin, was con-
sidered. It was agreed to accept, this.
Messrs. Murray and Rochester were
appointed to prepare a suitable minute
thereanent. Mr. Dodds was appointed
to preach at Keewatin and Norman on
Sabbath, the 15th inst., and to declare
the pulpit vacant, and Mr. Rochester
was requested to act as moderator of
the respective sessions.

A resolution was passed approving
the separation of the congregations of
Norman and Keewatin from each
other, Keewatin to proceed to the
calling of a minister, and Norman to
be given the standing of a mission un-
der the care of the Presbytery, the
supply for which to be left in the
hands of the session and the conven-
er of the home mission committee.

Grants were passed for the various
missions within bounds and supply for
the coming six months recommended
to the synod's home mission com-
mittee.

Students were notified to their re-
spective colleges.

The thanks of the Presbytery were
extended to the various transporta-
tion companies, more especially to the
Rainy River Navigation Company for
consideration shown our missionaries
when travelling in prosecution of their
work.

The results from the general assem-
bly, of which there were five, were
considered and passed upon as follows:

1. That the term of service for the
elderhood and deaconate be for a per-
iod of not less than five years, with
privilege of re-election. The considera-
tion of this was left over to the March
meeting.

2. That the general assembly shall
consist of one-sixth instead of one-
fourth of the whole number of minis-
ters on the rolls of the several Presby-
teries, and an equal number of elders.
Also that a fund be established for the
purpose of travelling expenses of com-

THE PRESIDENT PASSED AWAY

Succumbed to the Bullet of the
Assassin at 2:15 this
Morning.

Milburn House, Buffalo, N. Y.,
Sept. 14.—President McKinley
died at 2:15 this morning.

THE AMATEUR HANDICAP.

The handicap single scull race on
Tuesday evening created almost as
much excitement as the big races a
few days before. Several hundred
people watched the six contestants
with deep interest and many of them
at the sacrifice of their dinner. Three
heats were rowed, and it was nearly
dark before the last one was finished.
Dr. Schnarr and Jake (Jaudaur) did the
starting and handicapping. The dis-
tance was three-quarters of a mile
straight-away.

First heat—R. Beaudro, 1st sec., 1st:
S. Scott, 2d sec., 2nd: T. Phillips,
scratch, 3rd.

Second heat—T. Hooper, scratch,
1st; S. Griffiths, scratch, 2nd; W. Ma-
ther, 2d sec., 3rd.

3. (Owing to a mistake in the handicap
all three in first heat were allowed to
row again in the finals with the first
and second in the second heat.

Final heat—Beaudro, 1st sec., 1st: Sco-
tt, 2d sec., 2nd; Griffiths, 3d sec., 3rd:
Phillips, scratch, and Hooper, 5 sec.,
tumbled or the result might have been
different.

The prizes were donated by the vis-
iting oarsmen from England and H. W.
Smith. The first prize was a hand-
some solid silver shaving mug, brush
and razor; the second was a valuable
silk umbrella; the third was a solid
gold scarf pin.

Affairs of this kind create interest in
the sport as nothing else can do, and
it would be well to hold similar events
two or three times in the season.

C. P. R. TRACKS IN WINNIPEG.

would like to see a race with Beaudro,
Phillips, Hooper and Griffiths all starting
even, but mere talking and wishing
will never bring it about.
It is time for the Rowing Club offi-
cials to wake up. Then instead of
having our four defeated every time
they go to Winnipeg, and having a
number of good scullers kept in the
background, we may have some reason
at least to believe that R. P. R. C.
does not always spell defeat.

TOWN COUNCIL MEETING

Postponed Session Held on
Wednesday—Routine
Business.

The postponed meeting of the town
council was held on Wednesday even-
ing.

The finance committee submitted
their report, recommending the pay-
ment of accounts to the amount of
\$180.35.

A number of communications were
received and read.

A motion was carried requesting the
mayor to communicate with the Post-
master-General asking that the de-
partment establish at least four letter
boxes in different portions of the town.

The council will wait upon the two
Ontario ministers and Mr. Conmee
during their visit here and urge upon
them the necessity of having a bridge
constructed to replace the floating
bridge over the east branch of the
Winnipeg river.

Town Solicitor McLennan was re-
quested to advise the council as to
whether the Municipal council shall in
future be elected by the several wards.
(The clerk was requested to let on

Rat Portage Ont., Sept. 7th, 1901.
 Geo. Towns Esq.
 Dear Sir:—

Britons the world over, will felicitate
 with you on the splendid victory
 which you have this day
 achieved, and, whilst our con-
 gratulations must of necessity be
 tinged with the sympathy which we
 feel for our defeated townsman, we are
 desirous of recording our hearty ap-
 preciation of the sterling sportsmanlike
 qualities which you have shown dur-
 ing your short residence among us
 and in the contest today—the result of
 which has crowned you The Champion
 Oarsman of the World.

This title is a proud one, and the
 fact that you have journeyed from
 England to throw down the gauntlet
 of battle upon the quiet waters of the
 Lake of the woods, shows us in what
 high estimation this title is held
 among the sportsmen of the world.
 In your future home you will no
 doubt often be called upon to defend
 the honor you have so gallantly won
 here and in these future struggles our
 sympathies will follow you and we trust
 that you will successfully defend your
 title to be champion of the world
 under your flag of the Yellow and
 Blue.

In the spirit which binds us all to
 the mother country. We are sincerely
 yours,
 B. G. Fraser-Crierie, T. W. Chapple,
 Secretaries.

A. S. Horswill, E. J. Hall, T. R.
 Welsman, E. Appleton, Committee.
 The address is handsomely engrossed
 and has on the lower left-hand cor-
 ner a photo of the finish of the Towns-
 Gaudaur race.

In rising to reply Mr. Towns was
 greeted with rounds of applause. He
 said he did not feel in his place in
 attempting to make a speech. He
 could not find words to express all he
 felt. He thanked St. George's Society
 for the very handsome manner in
 which they were entertaining him and
 also for kind words and good wishes
 contained in the address just placed in
 his hands. He was proud to win the
 championship and also to be among
 such good, true friends. (Prolonged
 Applause).

Jan. Gleason presented Jake Gaud-
 aur's regrets when the ex-champion
 was called upon.
 Toro Sullivan was given three and a

half at the calamity that has befallen
 their President. Consular Agent Fris-
 bie thanked the company for the man-
 ner in which they had honored the
 toast. He congratulated Mr. Towns,
 hoped he would reap his reward from
 it and then rose to a good American.

"The Red White and Blue" by the
 company was heartily sung.

Councillors Horswill and Boleya
 replied to the toast of the "Town Coun-
 cil."

Geo. Smith brought down the house
 with his famous song "The Mick that
 Threw the Brick" and then he boasted
 it up again with "What do you think
 of Commodore?"

Commodore Sterling replied to the
 toast of the "Rat Portage Rowing
 Club."

Geo. Graham and Capt. Kendall also
 spoke briefly.

Songs were also contributed by
 Messrs Appleton, Ingram and E. J.
 Hall.

One of the most pleasing features of
 the evening was when Messrs. Towns
 Sullivan, Pearce and Field were made
 honorary members of St. George's
 Society.

The singing of "God Save the King"
 and "Auld Lang Syne" brought to a
 close one of the best conducted and
 most enjoyable evenings ever spent in
 Rat Portage.

Messrs. Towns, Pearce and Field
 took the trip to Beaver Mills and re-
 turned yesterday on the Keenora, and
 when they returned last night were
 more than ever impressed with the
 beauties of the Lake of the Woods,
 and highly delighted with the excel-
 lent service and comfort afforded by
 the officers of the Keenora.

While the three above named gen-
 tlemen were out of town Tom Sullivan
 had no hesitation in telling a good one
 on Towns and Pearce. They were all
 out on the lake on Wednesday after-
 noon the guests of Mr. and Mrs. Alan
 Sullivan, and during the course of the
 afternoon a canoe race was proposed,
 the two Sullivans in one canoe and
 Towns and Pearce in another. It was
 nip and tuck for a time, but a miss
 stroke by one of the latter crew, over-
 turned their frail craft and they were
 instantly foundering in the lake. Af-
 ter the party had had a hearty laugh
 at their expense they were towed
 ashore, and a big fire soon dried their
 clothing, leaving no bad effects.

The party expects to return from
 Winnipeg on the 21st and stop over a
 day here before leaving for England.
 Sullivan has called his friends that he
 will sail on Oct. 4th from Montreal.

Before leaving town Mr. Sullivan of-
 fered to put up a handsome trophy as
 a first prize for local scullers, and his
 offer has been accepted by the Row-
 ing Club. No doubt the club will put
 up a second prize for the event, and
 the two will be the means of renewing
 interest in rowing and may indirectly
 be the means of finding another cham-
 pion.

Nearly 500,000 bushels of wheat have
 already been stored at C. P. R. points
 in Manitoba during the past week.
 Over 747,000 bushels have gone for-
 ward.

The thanks of the Presbytery were
 extended to the various transportation
 companies, more especially to the
 Rainy River Navigation Company for
 consideration shown our missionaries
 when travelling in prosecution of their
 work.

The results from the general assem-
 bly, of which there were five, were
 considered and passed upon as follows:
 1. That the term of service for the
 eldership and deaconate be for a pe-
 riod of not less than five years, with
 privilege of re-election. The considera-
 tion of this was left over to the March
 meeting.

2. That the general assembly shall
 consist of one-fifth instead of one-
 fourth of the whole number of minis-
 ters on the rolls of the several Presby-
 teries, and an equal number of elders.
 Also that a fund be established for the
 payment of travelling expenses of com-
 missioners. Approved.

3. That a commission of assembly be
 appointed whose duty shall be the
 transaction of emergency business
 arising in the interval between assem-
 bly meetings. Approved.

4. That Presbyteries have the privi-
 lege of keeping their permanent re-
 cords in printed form. Approved.

5. That special Sabbath school mis-
 sionaries be appointed in the various
 sections of the church. Disapproved.

The following Standing Committees

were chosen:
 Home Missions—Messrs. Rochester,
 Murray, Rowand, Dodds.

Foreign Missions—Messrs. Rochester,
 McKittrick, Carmichael, Mathier.
 Sabbath Schools—Messrs. Dodds,
 Rochester, Skeen.

Y. P. S. C. E.—Messrs. Dodds, King,
 McGuire.

Church Life and Work—Messrs.
 Murray, Rochester, Rowand.

Manitoba College—Messrs. King and
 Murray.

Statistics—Messrs. Rowand and
 Murray.

Leave of absence from his congrega-
 tion for six months was granted Rev.
 W. L. H. Rowand, of Fort William.
 The sympathy of the Presbytery with
 Mr. Rowand in the illness of Mrs.
 Rowand, which necessitates this ab-
 sence, was expressed.

The Presbytery adjourned to meet
 in Port Arthur in March, 1902.

LEFT FOR WINNIPEG.

Sullivan Represents a Trophy—Towns and
 Boleya at Winnipeg.

Tom Sullivan and his party left this
 morning for Winnipeg, where they
 will be the guests of the Winnipeg
 Rowing Club for the next ten days.
 They took all their shells with them,
 or rather they followed them on the
 local, accompanied by Harry Pearce.

An endeavor is being made in Win-
 nipeg to make a match between Towns
 and Danford for a purse without any
 championships. When Sullivan was
 asked about it last evening he said he
 could say nothing about it until he
 had seen Mr. Geo. F. Galt, who was
 endeavoring to make the match. The
 Australians will be entertained at a
 smoking concert at the Winnipeg
 theatre this evening.

Owing to a mistake in the handi-
 cap all three in first heat were allowed to
 row again in the finals with the first
 and second in the second heat.

Final heat—Boyard, 3 sec. 1st; Sco-
 yll, 20 sec. 2nd; Griffiths, 5 sec. 3rd;
 Phillips, scratch, and Hooper, 5 sec.
 fouled or the result might have been
 different.

The prizes were donated by the visit-
 ing oarsmen from England and H. W.
 Smith. The first prize was a hand-
 some solid silver shaving mug, brush
 and razor; the second was a valuable
 silk umbrella; the third was a solid
 gold scarf pin.

Affairs of this kind create interest in
 the sport as nothing else can do, and
 it would be well to hold similar events
 two or three times in the season.

C. P. R. TRACKS IN WINNIPEG.

Ottawa, Ont., Sept. 19.—The Railway
 Committee this morning heard the C.
 P. R.'s application to lay six tracks on
 Main Street, Winnipeg. Mayor Ar-
 butnot and Mr. P. H. Chrysler, K. C.,
 who appeared for the city, opposed the
 application being granted unless a sub-
 way were constructed for public traffic.
 The committee seemed to favor the
 way, the cost of the subway to be
 borne partly by the city and partly by
 the company.

OUR FUTURE OARSMEN.

The events of the past two weeks
 have served to convince us that we
 know very little about rowing after
 all. We were not surprised that at
 last the silver-haired veteran, who has
 so long been such a commanding figure
 in the aquatic realm, should go down
 before the younger and more vigorous
 oarsman from across the sea.

But when on Monday, Hackett ig-
 nited the best time of his life, with all his
 experience and strength, met defeat
 at the hands of his young and inexpe-
 rienced rival, then indeed we sat down
 and wrung our hands in despair.

We now look to the rising genera-
 tion. On Tuesday an encouragement
 was given to our young oarsmen,
 through the efforts of Messrs. Towns,
 Sullivan and Smith, and considerable
 excitement was caused over the very
 excellent regatta which was thus
 splendidly arranged and carried out.
 It proved that we have splendid material
 for good oarsmen, and that there is in
 our midst considerable latent power
 awaiting to be developed.

Why does not the Rowing Club put
 up a cup or some prize to be competed
 for yearly by these single scullers?
 The financial condition of the club
 should certainly warrant a small ex-
 penditure of this kind.

Canadian people are very willing to
 carry off all the honors but often times
 I notice they are rather slow in putting
 up the necessary "doohick."

We can never expect to have a
 champion here again unless we are
 willing to give encouragement to these
 promising aspirants, after aquatic
 honors, who are now at the time when
 ambition can be either fostered or put
 down. There are a good many who

The finance committee submitted
 their report, recommending the pay-
 ment of accounts to the amount of
 \$180.33.

Number of communications were
 received and read.

A motion was carried requesting the
 mayor to communicate with the Post-
 master-General asking that the de-
 partment establish at least four letter
 boxes in different portions of the town.

The council will await upon the two
 Ontario ministers and Mr. Connec-
 during their visit here and urge upon
 them the necessity of having a bridge
 constructed to replace the floating
 bridge over the east branch of the
 Winnipeg river.

Town Solicitor McLennan was re-
 quested to advise the council as to
 whether the Municipal council shall in
 future be elected by the several wards.

The clerk was requested to lay on
 the table at the next meeting of the
 council the contract for printing with
 the News Publishing Co.

A HANDSOME GIFT.

Mr. H. C. Porvial, the new lessee of
 the Hilliard House, is a great admirer
 of Tom Sullivan, and to show his ap-
 preciation of his sterling qualities he
 has presented Mr. Sullivan with a
 magnificent mouse head. The head
 will speak louder than words when ex-
 hibited in England as to the royal
 game found in this district, and may
 be the means of inducing some Eng-
 lish sportsmen to come here to hunt
 them. Mr. Sullivan greatly appreci-
 ates the gift, and says it is only one of
 the many kindnesses that have been
 showered upon him since arriving in
 town.

P. Smith, representative of the Rat
 Portage Lumber company, declared in
 Duluth on Tuesday that thus far this
 season the Rat Portage Lumber
 company has started 50 million feet of
 logs down the Rainy River. When he
 left there were 13 million yet to go
 out of Rainy Lake into the river and
 12 million feet to come out of the Little
 Fork River. That makes 76 million
 feet for the season, but is no more than
 the out of last winter as quite a good
 many logs are those that were hung
 up last season by low water.

RAT PORTAGE, ONT., SEPT. 13, 1901

AS OTHERS SEE US.

The correspondent of the London Daily Express, writing from New York to his paper says:

"There is another development on this side of the Atlantic that is well worth mentioning in this connection. Canada is likely to send coal and iron to Great Britain as well as the United States. The cargoes of pig iron which have already reached the Clyde from Canadian ports are sure to be supplemented by many others. The encouragement which the iron industry is receiving from the Dominion Government is a great stimulus, and when those bounty-fed iron mills can ship their product in bounty-fed ships (as by no means remote possibility) Canadian exportation will have a tremendous advantage over that of the States. Not taking into account the bounties paid by the government, iron can be manufactured much cheaper in Canada than in the United States. Even the big steel trust, with all the economies which come with combination, cannot make iron and steel so cheaply as the moderate sized Canadian plants. For one thing, coal can be laid down at the Canadian furnaces at a little more than half price that coal costs the American furnaces. With limitless quantities of iron ore and coal in Nova Scotia, the iron and steel industry of the Dominion is capable of vast development. It is a little strange to people over here that English capital, which is hunting around in the States for investment in breweries, bakeries, potteries, etc., does not look around Canada and find even better opportunities under the English flag. Capital should try to act an occasional good example in patriotism, especially when there's money in it."

According to Mormon theology the widow of Brigham Young, who died Wednesday, will go to the celestial kingdom, not to meet Brigham Young, but to be the wife through eternity of Joseph Smith, prophet of the church. Judging by her picture Joseph is not especially to be congratulated.

The Morgan Syndicate, which is reported to be backing up a combination of all the bituminous coal mines in the

How High Was the Tower of Babel?

The actual height at which the last stone of that famous structure, the Tower of Babel, rested cannot, on account of the remoteness of the times at which it is said to have existed, ever become more than a matter of mere conjecture. Herodotus, who lived about 1,700 years after that "great spiral way to heaven" is said to have been attempted, says that he saw at Babylon a structure consisting of eight towers raised one above another, each 75 feet in height, but whether this ruin was the remains of the Tower of Babel it was even then impossible to ascertain. Herodotus, usually minutely exact in his writing, leaves us in ignorance as to how the upper level of each of these 75 foot towers was reached from the level below.

As might be expected, even in tradition, a wide difference of opinion exists as to the height of the tower. Most orientalists maintain that God did not put a stop to the work until the tower had reached a height of 10,000 fathoms, or about 12 miles. In Ceylonese tradition it is said to have been as high as 20,000 elephants, each standing one above the other. St. Jerome asserts on the authority of persons who had examined the ruins that it did not reach a height exceeding four miles. Other statements are still more extravagant.

Bill Nye on Life Insurance.

The late Bill Nye's indorsement of life insurance is probably the most characteristic paragraph to be quoted from his writings:

"In these days of dynamite and swift changing presidential administrations and dark tunnels through which an engineer goes groping his way at 25 miles per hour, these days of tumbling signs of the times and tippy telegraph poles, live wires and dead repeaters; these days when the politician and the dead-end bridge policeman with his pull le down together under the influence of the same stimulant; these days when death lurks in the air we breathe, the earth we tread, the food we eat, the water—the water we bathe in—I say it behooves us to look well to our insurance and our future state, and I take pleasure in certifying and saying to whom these presents may come that since I became fully insured my health has improved so much that it is a subject for profound congratulation on my own part and the deepest disgust on the part of those who would naturally inherit my vast wealth."

Keeping the Head Clean.

Keeping the head perfectly clean is a great aid to health. An exchange tells of a distinguished physician who, having spent much of his time at quarantine, said that a person whose head was thoroughly washed every day rarely took contagious diseases, but when the hair was allowed to become dirty and matted it was hardly possible to escape infection. Many persons find speedy relief for nervous headache by washing the head thoroughly in weak soda water. We have known cases almost wholly cured in ten minutes by this simple remedy. A friend finds it the greatest relief in case of "rosy cold," the cold symptoms entirely leaving the eyes after one thorough washing of the hair. The head should be thoroughly dried afterward, and drafts of air should be avoided for a little while.

The Celebrated "Leaf Ant."

One of the oddest little creatures in all animal nature is the "leaf ant" of Central America. Although different species of this oddity are known, to inhabit the American continent from Brazil to Mexico, the real home of the true leaf ant is in Nicaragua. To all outward appearances this little insect is a common ant, but one of gigantic size, it must be admitted, when compared with the ants of our temperate regions, being on an average over an inch in length. The habit for which these ants are so celebrated, and one which we could hardly believe were it not for the testimony of reputable naturalists, is that of carrying a leaf for a sunshade, just as our women and men carry parasols and umbrellas for the same purpose.

When at work, the leaf carrying ant looks like a little army in which each individual member is protected from the sun's rays by a little banner of green. Another remarkable fact in connection with the leaf carrier is that only those at work carry the little leaf protection. When a long file of burden bearers have deposited their burdens, they discard their parasols and return for a lead without the leaf which made them such conspicuous objects when on the "up trip."

Millet and "The Angelus."

It was only after long years of struggle and dire poverty, through which Millet was consoled and supported by his wife, that the peasant painter was able to take the peasant woman cottage at Barbizon and "try to do something really good." It was then that he began to paint that most beautiful "opus of poverty," the "Angelus," which is today one of the most valuable pictures in the world. Again and again he threw aside the picture in despair of ever finishing it to his satisfaction, and as often his wife replaced it on the easel and implored him to continue.

On one occasion he was so incensed at not being able to produce a certain effect that he seized a knife and would have destroyed the canvas and ended the matter once for all had not his wife fortunately seized his hand and induced him to give the picture another trial. Thus it was that at last the "Angelus" found a place on the walls of the Louvre. The success it won encouraged Millet to paint many more pictures and thus place himself among the immortals in art.

Abraham Lincoln.

This Lincoln of the black team, who built his neighbor's cabin and hoed his neighbor's corn, who had been storekeeper and postman and flatboatman, who had followed a rough justice round a rough circuit, who had called a local bully in the dirt, rescued women from insult, tended the bedside of many a sick coward who feared the judgment, told coarse stories on barrels by candlelight (all these are pure beside the view of great cities, who addressed political mobs in the raw, swooping down from the stump and flinging emboldened east and west the physician who was one day to tend the sickle of the nation in her agony, whose large hand was to be on her feeble pulse and whose knowledge, almost divine, was to perform the miracle of her healing.

A Chinese Joke.

There is a story in circulation that

"Common Sense"

Is the motto of the modern woman. The thick soled shoe and the rainy day skirt are witnesses to the wise application of the motto in matters of dress.

But there is no common sense in neglecting womanly diseases or in experimenting with other medicines when it is a matter of common knowledge that Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It establishes regularity, dries creaking drains, heals inflammation and ulceration and cures female weakness.

It is not common sense to seek medical advice of those who are not physicians when Dr. Pierce, not only a doctor, but a specialist, has a treatment and cure of diseases of woman, offers a consultation by letter free. Write to Dr. Pierce, Buffalo, N.Y.

"I had falling of internal organs and had to get to bed every month; had irregular monthly periods which would sometimes last ten or twelve days," writes Mrs. L. Holmes of Coal Spring Street, Philadelphia, Penna. "I had also indigestion so bad that I could not eat anything hardy. Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' cured me. I took three bottles of the Favorite Prescription and one of the 'Golden Medical Discovery'."

For a one-cent stamp to pay expense of stamps and mailing only you can get free a paper covered copy of Dr. Pierce's Common Sense Medical Adviser. The book contains 108 pages. Address Dr. R. V. Pierce, Buffalo, N.Y.

A GIANT HUMILITY

Characterizes the Tenets of Prayer Read in the British House of Commons—Citizens' Information.

In the British House of Commons the other day an Irish member asked the leader of the House who was responsible for the form of prayer read in the House. Mr. Balfour was unable to satisfy the hon. member's curiosity at the moment. But the researches of the editor of "Hansard" have produced an answer and incidentally supplied some interesting information. The first reference to prayer in the journals of the House is in 1603, in Sir John D. E. E. in the journal of Queen Elizabeth's Parliament, writing of the Parliament of 1577, says: "Both before the session of the House, Protestant Preachers, by the Speaker of the House, were to read to the members of the House a prayer for the success of the session, and for the peace of the country, and for the health of the King and Queen."

From this it is evident that the prayer was not, as some would have it, a prayer for the success of the session, but a prayer for the success of the session, and for the peace of the country, and for the health of the King and Queen. The prayer was not, as some would have it, a prayer for the success of the session, but a prayer for the success of the session, and for the peace of the country, and for the health of the King and Queen.

CANADIAN ARSENIC.

NOTHING AT BUFFALO TO BE COMPARED WITH THIS EXHIBIT.

History of the Unique and Remarkable Dolores Mine in Hastings County, Ont.—A Close Corporation in Which There Is No Stock for Sale—Only Arsenic-Producing Plant in America.

(Special by Martha Craig.)

On entering the Ontario Mining Division of the Mines Building at the Pan-American Exposition, much may be seen that is at the same time interesting and instructive. Not least amongst these is the exhibit from the Dolores Mine of Hastings Co., Ont. On examining the display in the handsome show cases are found the Arsenic. This is something new and one will naturally ask what has this to do with a mineral exhibit? On further investigation we learn that arsenic is manufactured from the ores we see in the same cases. These ores are known as mispickel ores. Looking into the show cases we learn that these ores contain gold as well as arsenic, and that the gold is extracted first from the raw ores after they have been crushed by stampers.

Another most interesting feature about this exhibit is that the peculiarities of these deposits and the formation surrounding them is pictorially represented by actual rock samples showing the veins and gangue in miniature. This is a novel feature in an exhibit and a valuable one from an educational point of view and reflected great credit upon Mr. Kirkwood's discovery of new processes. There is much to be learned from this little exhibit. It stands alone as very unique and there is nothing else that can be compared with it.

The Dolores Mine has a most remarkable history. It was first discovered during the gold excitement over thirty years ago and was owned by the Gilling and Gilling & Sons Mining Company from 1872 to 1880, during which time considerable work was done in it, and a 20-stamp mill was built. Some of the surface ore was milled with a profit, but at very shallow depth the ore became refractory, containing 20 per cent, and more of mispickel. Arsenic was then known would extract the gold and work was discontinued. In 1880 the property was bought by the Canadian Consolidated Gold Mining Company, who at once engaged large bodies of men to work on the only crushing mill and all the machinery. Considerable development work was done during the lifetime of this plant and this was largely started, crushing thousands of tons of ore, but all was wasted. In 1888 the mine was closed and remained idle until 1896, when the property was bought by the Canadian Goldfields Company, who at once started by building a large mill, this time manipulating the ore by the dry crushing and bromine process. This was only partially successful, some 50 to 60 per cent of the gold value was recovered. The process was so expensive that this was abandoned. It was not until 1896 when the present manager, Mr. P. Kirkwood, was in place, that the idea of the mine that anything like success was met with.

During the summer of 1898 the dry crushing mill was destroyed

Rather Venomous.

A tenderfoot who visited the Yosemite in the old days thus related his experience: The stage driver found out that he was seriously afraid of snakes and immediately proceeded to make his hair stand on end.

"Venomous reptiles? You bet. I don't know what reptiles is, but them snakes you can just bet your life is venomous. Why, one day I was comin down here drivin a wagon, when I catches sight of a snake in the brush all ready for a spring. My horses starts, an I ups 'em up fast to clear the snake, don't you see, afore he could spring. He makes one clear spring, the snake does, an he misses the horses."

"That was lucky. But you—you—"

"Lucky? You bet your life it was lucky. He missed the horses, the snake did, but he stuck his fangs clean through the wagon."

"You don't say."

"I do say, and maybe you don't believe it, but it's a fact. He stuck his fangs clean through that wagon, an that wagon is swelled up so bad that we had to leave it by the wayside and take the horses home."

"You don't say."

"I do say, and maybe you don't believe it, but it's a fact. He stuck his fangs clean through that wagon, an that wagon is swelled up so bad that we had to leave it by the wayside and take the horses home."

Dogs and Somersaults.

As there is more than one way of cooking a goose, so there is more than one method of teaching a dog to throw somersaults. But the most practical and thorough manner is to fasten a cord around the body of the animal close to the forelegs, and two people should hold the ends of the cord on either side of the unfortunate dog.

A third party armed with a stout rope takes a position immediately in front of the canine acrobat and with a measured and masterly stroke dogs the floor at close quarters to the dog's nose.

At each stroke of the rope the dog springs backward, and that movement is the trainer's golden opportunity. As the dog spring backward the rope passing under its body is jerked upward, and, although the first few attempts may prove futile, the somersault is acquired in course of time. An intelligent dog soon sickens of this order of things and throws somersaults without the assistance of ropes.

A Distant Query.

A good story is told of one of the dignitaries of the Scottish church. Before he became known to fame he was minister of a remote parish in Perthshire and was not considered a particularly attractive preacher. At his suggestion extensive alterations were made in the transept of his church, and these had the effect of sweeping away considerable seating accommodation. One day after the alterations had been effected he visited the church to see how it looked.

"What do you think of the improvements, John?" he asked of the beadle.

"Improvements?" exclaimed John in disdain. "They're no improvements at all. What air ye goin to put the folk?"

"Oh," said the minister, "I have abundance of room, John, considering the size of the congregation."

"That's a very weel the noo," retorted the beadle, "but what will we do when we get a popular minister?"

A New Excuse.

One of the men in a large pottery took two or three days' holiday now and again, and when he came back, on being asked what was wrong, he said he had been away burying his grand-nother.

FORESTRY EXHIBIT.

Canada's Display at the Pan-American Is Principally a Commercial One—The Principal Exhibitors.

(Special by Martha Craig.)

The Canadian Forestry Exhibit is a purely commercial one. Mr. C. Swanson, who has been a shipper and buyer of fruit and timber for seventeen years, is in charge. Mr. Swanson is thoroughly acquainted with the timber business. He has traveled extensively from the Atlantic to the Pacific and through the British Isles.

Prominent amongst the many exhibits is that of the Columbia Handle and Timber Company of London, Ont., who have a very fine display of the different kinds of wood and tree sections from which they manufacture the varied products of their immense factory, a few of which are "tree sections of hickory, basswood, white ash, red oak, white oak and hard maple. They also show eighteen samples of dressed lumber as follows: Black ash (curly), white ash, black ash, red oak, white oak, white oak (quartered), soft maple, hard maple, walnut, spruce, rock elm, soft elm, basswood, pepperidge, cherry, beech and chestnut.

Along with the above they have a very fine display of manufactured articles, such as hockey sticks, base ball bats, dumb bells, Indian clubs, ax handles, hammer handles, shovel handles, and in fact all kinds of turned work. They are large exporters to the British market.

The next thing that catches the eye as you pass on is some fine specimens of furniture—two chiffoniers, one of red birch (mahogany finish), the other of yellow birch (natural finish), and a dressing table of the latter made by Thomas Bell, a manufacturer of Wingham, Ont.

There are two handsome canoes on exhibition—one made by Wm. English of Peterboro, a popular canoe maker, and the other by H. L. Hastings of Hamilton.

Just a word of comment on the latter: It was decorated by E. Allen, Donville Henning of Hamilton, and is without exception the finest piece of work of its kind ever exhibited. The work is called pyrography or etching by fire. On one end on top there is an Indian Chief's head and the other a maple leaf, and at one end on the sides there is the picture of a deer and at the other end the pretty Indian name Neponosh.

There is also an inland Baptistical Font made by W. H. Morgan of Huntsville, Ont., which is worthy of notice.

Mr. Booth, the lumber king of Ottawa, also contributed some tree sections of white pine, red pine, white spruce, and silver birch.

The British Canadian Timber & Manufacturing Company, N. York, Ont., have tree sections of red birch, yellow birch, and black birch. Mitchell Bros., Berkeley, Ont., have a nice exhibit of hardwood dressings.

Lally, Cornwall, Ont., has a very fine exhibit of Larchwood shingles which attracts no little attention. The Lynn Lumber Company, Lynn, Ont., have an exhibit of hard maple shoe lasts. In the background of the exhibit is displayed all the different kinds of lumber that grows in Ontario, showing each piece in three different stages of finish. The lower part of the display, the centre and the top, are highly polished. There are in all twenty samples, viz., white pine, green fir, white pine, natural birch, white spruce, natural fir, red birch, natural

Process Too Expensive.

Warts are curious things. They come and go mysteriously, although their going is frequently marked by exasperating delays, and there are almost as many infallible cures as there are warts, the only trouble with these cures being that they are useless when applied to the particular wart you happen to have. They are only good for other people's.

"In my opinion," said a clubman who was discussing the subject with a friend one day, "a wart is merely the outward correspondence of some mental excrement. Get rid of that, and it goes away."

"Let me give you a bit of my own experience," he continued. "Last year I went to Europe. For about three years I had had a wart on my little finger, on which I had tried everything I could hear of, but without effect. It only grew larger."

While in the excitement of preparing for the trip and of the journey itself I forgot all about my wart, and when I looked for it about six weeks later it had vanished without leaving the slightest mark. I simply forgot it, and it had no mental condition to feed on. I see you have one on the back of your hand. Forget all about it, for a few weeks, and it will go away of itself."

"Yes," said the other clubman, shrugging his shoulders, "but I can't afford to take a trip to Europe for the sake of curing one wart."

Sewing Done by Ants.

Ants are credited with so many marvelous accomplishments that a new one must be remarkable to the noteworthy. Mr. E. G. Green of Ceylon, an authority upon insect habits, has, however, made an observation which is well worth putting on record. He has watched red ants holding grubs in their mouths and using the web they spin to repair a rent in their nest.

Some leaves which had been fastened together by the ants were separated by Mr. Green, and in a short time after he saw small white grubs being passed backward and forward across the gap. Close observation showed that each grub was held in the jaws of one of the worker ants, and its movements were directed as required. A continuous thread of silk issued from the mouth of each grub and was used by the ants to sew up the rent in their shelter.

There were no grubs in the neighborhood, and those used were obtained from a nest at some distance. This deliberate use of a naturally formed web as a sewing thread is as astonishing as any instance of the intelligence of ants yet observed.

Peculiar Trees.

The visitor to the Falkland Islands sees a number of what appear to be weather beaten, moss covered boulders of various sizes scattered here and there. On attempting to turn one over he is surprised to find that it is anchored to the ground by roots of great strength. These are not lawless trees, they are trees. No other place in the world can show such a peculiarity of "forest" growth. The Falkland Islands are exposed to a strong polar wind which renders it impossible for trees to grow in the proper form. Nature has consequently mapped herself to the prevailing conditions and produced this strange form of plant life. These "living stones," as they are called, are quite devoid of grain, and it is next to impossible to cut them up and utilize them for fuel.

DUNDURN MEMORIES.

Sir Allan MacNab a Heroic Rather Than a Canny Scot—How He Profited by Getting Into Jail.

Excursionists, always looking for new scenes, have begun to turn their attention to Dundurn Park, says The Toronto Globe. Perhaps it could scarcely be correctly described as a new scene, for even during the occupancy of the late Senator McInnes excursionists were occasionally allowed to use the grounds. Since it has become Hamilton's public park it has still more attracted those in search of an outing. No doubt a very general thought on the part of visitors is how fortunate Hamiltonians were in obtaining possession of a playground all ready made to their hands, and a second thought, no doubt equally general, is how they ever got a thing without it. A park it leaves little to be desired. Within its compass is to be found some of the noblest specimens of the national tree, while the oaks that climb the steeply descending to Burlington Bay are forest veterans that were old when the site of Hamilton was still an unbroken portion of nature's domains. The soil of the park seems to be particularly well suited for tree growth, for even the chestnut, which may be regarded as an exotic, here shows an unusual development. It is not the mere cabbage-shaped growth with which we are most familiar, but a stout-armed monarch, spreading its shade over a spacious area of lawn.

To a few, however, the castle will always be the chief attraction, or its associations at least to be the chief theme of their thoughts while there. A portion of it is now used as a museum, but a pleasanter occupation than that of peering at ostrich eggs and Chinese coins is the revamping of these lofty halls and rooms with the forms of another generation.

Dr. Bourinot tells us, in the address delivered on the occasion of the dedication of the park, that Sir Allan MacNab had none of the business or economic traits of the canny Scotchman, from which he sprang. "He may be called a Canadian eccentric," says Dr. Bourinot, "carpe diem—enjoy life day by day was his motto." Mr. Dent, in his history of the Canadian rebellion, says that Mr. MacNab, when he first came into accidental prominence, was "an impetuous lawyer" in Hamilton, and, however flourishing his prospects became, it is to be feared that impetuosity was a chronic consequence of his buoyancy and optimism. He owed his start in life, Mr. Dent says, to the circumstance that he was sent to jail. Being summoned to give evidence before a Parliamentary committee as to the exhibition of the edicts of Sir John Colborne in the streets of Hamilton, he refused to answer certain questions, and was committed to jail for contumacy. He spent ten days there, and was then released. He was received as a martyr to Toryism, and Mr. Dent declares that his whole subsequent life and future had its roots in the incident. "By its aid," Mr. Dent says, "the successfully free member of the Upper Canadian Parliament, Speaker of the Assembly, Commander-in-Chief of the Upper Canadian land forces during the rebellion, Knight, Queen's Counsel, member of the Privy Council, Premier of the Canadian Legislature, Premier, President of the Council and Minister of Agriculture, Baronet, Honorary Colonel in the British Army, Aide-de-Camp to the Queen, Speaker of the Legislative Council. He also became

Local Interest

Miss West, niece of Mrs. J. A. McCrossan, left yesterday morning for Toronto. She remained over a day at Port Arthur, where she was joined to-day by Miss Somerville, late matron of the Jubilee Hospital, who left on this morning's train. The two ladies will make the journey by the lakes together.

Two very interesting events will occur on the 25th inst., when two popular young people of this town will be married in St. Alban's church, and a prominent merchant of Vancouver will lead another of Rat Portage's fair daughters to the altar at Knox church.

R. H. Knight, of Sault Ste. Marie, D. D. G. M., will visit Pequona lodge A. F. & A. M., on Thursday evening, Sept. 10th; Kewatin lodge on Friday evening, and Lake of the Woods Lodge Saturday evening.

Mr. and Mrs. J. A. McCrossan and Mr. and Mrs. H. Wright left yesterday on the Pastime for a week's shooting and fishing at Rushing River and other places.

Delbridge Bros., have lost four valuable horses at their ranch at Mars, quett, Man., from fever during the past week.

Mr. Wm. McKreith left Wednesday for Ignace, where he will remain for some time.

Just Courtney, who has been seriously ill is now progressing favorably.

Messrs. J. G. Gaudaur, Geo. Drewry

Wm. Shaw and wife left this morning on a trip to St. Paul, Chicago and and the Pan-American.

The sale of the Rogers Clothing Co. stock, advertised for to-day, has been postponed for one week. The highest bid was 50c, while the reserved bid is a fraction over 58c.

TEACHERS' INSTITUTE.

The school teachers of Rat Portage and the Rainy River District will hold an institute in the Central School here on the 20th and 21st September. An instructive and interesting program has been prepared and from present indications there will be a very large attendance. The public are invited to attend the sessions, of which there will be five. Following is the program:

Friday Morning, 10 to 12—Opening at 10 a.m.; Roll Call; President's Address; "Relation of Teacher and Pupil," Miss M. McFarlane.
Afternoon, 1:30 to 4.—"Physical Geography," D. McCaig, P. S. I.; "Aim of Teacher," Miss McIntyre; "History," Mr. Wilson, B. A.; "Advancement in Education," Mr. Robertson, Chairman P. S. B.

Evening, 8 O'Clock.—A public lecture will be given by Mr. McCaig, Public School Inspector, on the Moods of Fenynson in "In Memoriam."

Saturday Morning, 9 to 12.—"Quality vs. Quantity," Mr. Poole; "Lesson in Geography," Miss Davis; "Short Cuts in Arithmetic," Mr. Preston; "Expressive Reading," Miss Wilkinson.

Afternoon, 1:30 to 4.—"Unity of Nature," Mr. McCaig; "Examinations," Mr. Robinson; Questions Answered; Election of Officers.

R. B. Hungerford, Grand Master of the Grand Lodge of Canada A. F. and A. M., died at London on Monday.

W. S. Wright, of Tyrone, near Bowmanville, was robbed of \$2,000 by highwaymen.

Ernest Beer has been arrested at Toronto charged with the murder of Michael Hartnell. This is the outcome of a bar-room row.

The steel strike situation across the line is getting serious.

The name Czolgossy, President McKinley's would-be assassin, is pronounced "Shawl-gotch."

S. A. Lazier & Sons' paper mill at Belleville was damaged by fire to the extent of \$50,000.

The Toronto reception committee objects to a fee being charged to the

Rheumatic-warped Limbs, Pain and Suffering.

Not a Trace of Rheumatism Left
After Using Dr. Chase's Kidney-Liver Pills.

If you are a sufferer from rheumatism it is possible that you have tried many remedies without reaping much benefit. Judging from the number of cures that have been reported, Dr. Chase's Kidney-Liver Pills must be about the best medicine obtainable for rheumatism. It cures thoroughly, by ridding the blood of uric acid poisons, the cause of rheumatism and severe body pains.

Mr. S. Mann, Stittsville, Carleton Co., Ont., writes: "I was afflicted with rheumatism, had severe pains in the knees, hip joints and across the back. Rheumatism remedies did not help me and I began using Dr. Chase's Kidney-Liver Pills, which have since completely cured me. There is not the least trace of rheumatism left, and I am no longer subject to biliousness, headache and stomach sickness, which formerly attacked me frequently."

Dr. Chase's Kidney-Liver Pills have a larger sale by far than any similar remedy. They cure when others disappoint. One pill a dose, 25 cents a box, at all dealers, or Edmansson, Bates & Co., Toronto.

BOARD AND ROOM—For one or two gentlemen. Apply to Jos. Gauthier, Barber, Second Street.

PRIVATE SALE

Household Furniture.

R. H. Hangerford, Grand Master of the Grand Lodge of Canada A. F. & A. M., will visit Pequon lodge A. F. & A. M. on Thursday evening, Sept. 19th; Keewatin lodge on Friday evening, and Lake of the Woods Lodge Saturday evening.

Mr. and Mrs. J. A. McCrossan and Mr. and Mrs. H. Wright left yesterday on the Pastime for a week's shooting and fishing at Bushing River and other places.

Dulbridge Bros. have lost four valuable horses at their ranch at Marquette, Man., from fever during the past week.

Mr. Wm. McCreith left Wednesday for Ignace, where he will remain for some time.

Just Courtney, who has been seriously ill is now progressing favorably.

Messrs. J. G. Gaudaur, Geo. Drewry and Dr. Scovill, are shooting at the North West Angle.

J. W. Leonard, superintendent of the Western division of the C. P. R., passed through yesterday en route to Fort William.

E. J. Hall, has returned from a combined business and pleasure trip to Buffalo and New York.

Magistrate Robinson has been busy for the past few days saying "S2 and costs" nearly all the culprits before him having been celebrating Town's victory.

The Dorcas Society of St. Alban's church held a very successful exhibition of fancy work yesterday afternoon. Refreshments were served and the society will have a snug sum to their credit as a result.

B. C. Griffith had a narrow escape from having a fire in his tailor shop last evening. A gasoline lamp caught fire and the shop was saved by Mr. Griffith throwing the blazing lamp into the street where it burned for some time.

Mr. George Evans has secured a diploma from the American college of science.

Arrangements are well under way for a smoking concert to be tendered Jake Gaudaur on the 21st inst.

Mr. Richard Thompson, county master, was the recipient last night of a very handsome present from the members of L.O.L. 1652, at their regular meeting. It is a past-master's jewel, consisting of a five point star with mallets crossed. The inscription on the reverse side reads: "Presented to W. Bro. Rich. Thompson by L.O.L. 1652, Rat Portage, Aug. 1901." Mr. Thompson filled the chair for two terms, and has also been secretary, and is always active in anything pertaining to the order.

It is expected the next issue of the Ontario Gazette will contain the appointment of the sheriff for Rainy River District. It is said by the knowing ones that a local man has secured the prize, but not one of the gentlemen who have been so prominently in the race.

R. B. Hangerford, Grand Master of the Grand Lodge of Canada A. F. & A. M., died at London on Monday.

W. S. Wright, of Tyrone, near Bowmanville, was robbed of \$2,000 by highwaymen.

Ernest Beer has been arrested at Toronto charged with the murder of Michael Hartnell. This is the outcome of a bar-room row.

The steel strike situation across the line is getting serious.

The name Czolgossy, President of Kinley's would-be assassin, is pronounced "Shawl-gotch."

S. A. Lazier & Sons paper mill at Belleville was damaged by fire to the extent of \$50,000.

The Toronto reception committee objects to a fee being charged to the grand stand during the visit of the Duke and Duchess of York.

Sergt. J. Black, Canadian scouts, died of wounds at Kroonstadt on Sept. 5th.

Rochester cinched the eastern league baseball championship by winning their game Tuesday. Toronto is in second place.

Three boys were badly injured at Stratheona, Alberta, by the explosion of giant powder which they were carrying in their pockets.

The Duke of Cornwall and York will present South African war medals at Winnipeg Oct. 6.

A clearing house has been opened at Ottawa.

The Dominion Government will have to pay \$3000 per day bounty on the iron and steel produced by the Dom.

Oil for the Children.

Give them oil—cod-liver-oil. It's curious to see the result. Give it to the peevish, fretful child, and he laughs. Give it to the pale, anemic child, and his face becomes rosy and full of health. Take a flat-chested child, or a child that has stopped growing, give him the oil, and he will grow big and strong like the rest.

This is not a new scheme. It has been done for years. Of course you must use the right oil. Scott's Emulsion is the one.

Scott's Emulsion neither looks nor tastes like oil because we are so careful in making it pleasant to take.

Send for free sample.

SCOTT & BOWNE, Limited, Toronto, and all Druggists.

Two men named A. Mazis and M. Lawrence were killed on the Algoma Central by an engine striking a hand-car on which they were riding.

N. Pomeroy, of Oberlin, O., and W. Boucher, a rapids pilot, were drowned at the Soo while shooting the rapids.
